District Five

FUQUA & MILTON  
County Attorneys

## Storm Report

On April 23, 2020 at approx. 4:45pm local response personnel were paged out to several areas of Washington County as severe storms and strong winds moved through. Fire, LEO, and Public Works personnel found power lines and large trees down throughout the County. At this time it appears the most significant damage occurred in the Corbin Rd. and the Douglas Ferry Rd. areas. Reports indicate several homes sustained minor damage but there were no injuries, and no one is displaced from their home. The Fire Services Coordinator reports a barn with equipment was destroyed on White Rd., an unoccupied travel trailer on Corbin Rd. was destroyed and several outbuildings had significant damage and a large tree fell on an unoccupied vehicle.

Local power companies worked through the evening to restore power to customers. Currently, 438 customers are without power in the northwest portion of the county. Crews are diligently working to make the necessary repairs.

If you had damage that you'd like to report to the Emergency Management office, please call 638-6203.
