Waste Management Garbage Pickup

Because of lingering icy road conditions, Waste Management must suspend service for Thursday. Make up service for residential customers with once-per-week garbage will be pushed one day. For twice-per-week garbage customers, service will resume on their next service day.

It is recommended that if residents are unsure of when their garbage will be recovered, they should leave their cart by the road until it is serviced. Because of the two-day suspension, we may run slightly behind in our recovery efforts. We appreciate everyone's understanding throughout this weather event.

Regular schedules will resume next week.
